

Wickedbone Release Notes:

Date: 2018.09.12

Wickedbone Firmware: v02.02

What's New?

[add] Jump strength adjustable by "SPEED"

[add] Induction intensity adjustable by "SWERVE"

[optimize] Power management and induction control algorithm

Notes:

Do not power off the Wickedbone during the firmware update.

If the firmware update fails, restart the Wickedbone App, and retry.
